

Chess and Cruelty

I

Practising something
Winning takes thinking
Like the world
Values curtailed, curled

II

Add anonymity
Online carefree community
Some will begin games
Not play; hope you go away
Courtesy questioned; charged with abandonment
Social contract corrected less fast (for content)

III

We play games
For variety, virtual community
Go everywhere, in His Peace, Shalom
Try always, to live your values, decorum
Yet, what shall one do? Use BLOCK!
ONLINE, we are unlikely to take stock
So play to see, as guest, good sport

Be Wise, but more, Be A Good Sport. The social - media editors overdo little problems ... I understand the tough balancing act. Just had these thoughts 1-2 years ago, when I played almost daily (CandyCrush & online chess).
